

CURRICULUM VITAE

RICHARD 'CRAIG' CESARIN

CFI®

Mr. Cesarin's background consists of education and technical training with over 49 years of professional fire service experience. He worked in a major municipal fire department for 37 years, working in progressively more responsible positions during the course of his career retiring in 2004 at the rank of Deputy Fire Marshal. One of his responsibilities while working in the Suppression Division with a Truck Company was to achieve qualification as a State Certified Hazardous Materials Specialist/Technician.

During the course of his career, Mr. Cesarin responded to numerous emergencies, supervised and investigated many fires as an Acting Fire Captain. In 1997 Mr. Cesarin was promoted to Deputy Fire Marshal and conducted approximately 250 fire investigations before his retirement. As a Deputy Fire Marshal, his primary responsibility was to conduct Origin and Cause investigations, prepare detailed written reports, coordinate criminal complaints with law enforcement, and perform complex code enforcement inspections within the City of Mountain View, CA.

Mr. Cesarin was a member of the Santa Clara County Fire Investigation Task Force Team and assisted in major mutual aid fire investigations such as the Orthodox Church Fire in Los Altos, the Minton Lumber Yard Fire and Postal Express Fire in Mountain View, CA, and the Santana Row Fire in San Jose, CA. Between 2004 and 2012 Mr. Cesarin was again retained by the City of Mountain View, CA to train, supervise and oversee the development of the full time deputy fire marshals within the city.

Mr. Cesarin is employed by Fire Cause Analysis as a forensic fire origin and cause investigator and has investigated numerous large loss fires in a variety of commercial and industrial buildings within the states of California and Nevada.

Mr. Cesarin is a certified Level II Fire Investigator and Fire Inspector through the California State Fire Marshal's office. He has been a member of the California Conference of Arson Investigators for over twenty years and a member of the International Association of Arson Investigators. He is also permitted to work in Washoe County, Reno as a fire investigator.

To further his knowledge, training, experience and understanding of fire, Mr. Cesarin has conducted many live-fire scenarios in controlled settings to observe and analyze fire behavior, fire spread, fire patterns and fire dynamics in structures. The live-burn test included the use of multiple accelerants to observe their
